## THE EYE

**Hong Kong/2002/Pang Brothers/98 min.**

All is not as it appears in this chilling psychological thriller. After 18 years of blindness, 20 year-old Mun's eyesight is restored following a corneal transplant. Immediately, mysterious black-clad figures in Mun's field of vision seem to foreshadow sudden deaths, and disfigured denizens haunt her daily. Mun slowly learns that she has inherited her donor's particular fate—the ability to see into the future and the terror that comes with it.
